

How to convert Text Messages

1. Open **Messages** on your iPad
2. Long tap a text message and tap **Copy**.

3. Open **PDF Printer** and switch to the **Message** tab.
4. Tap **Add From Clipboard** button to add copied message text as a separate block. You can add unlimited blocks the same way. You can also add photos copied from Camera Roll as separate blocks.
5. Tap **Edit** button to manage blocks. Drag them to reorder, delete unnecessary blocks and merge using the  button.

6. Tap **Done** when you complete edits and tap **Convert** button when done to get the PDF version of the list.
